

**Digiwise** is a dynamic company that provides customers with a full range of TFT DISPLAYS from size 1.77” to 12.1”, including standard and semi-custom products as well as engineering services, manufacturing, integration and supply chain solutions. From prototype to new product introduction, supply chain solutions to life cycle management, we will work with your team to provide design and electronics assembly solutions to meet your needs.

Digiwise has captured the latest upgrade of color TFT technology with 10.1”. Featuring IPS technology, high brightness, with power board and led driver board as optional and extended temperature range, these products are ideal for embedded applications in industrial and medical markets.

Model No.	Resolution	Viewing Direction	Outline Dimension	Active Area
13-101ZIEB00A0-S/C0-S	1280RGB*800	IPS	229.46*149.1*4.8	216.96*135.6
13-101ZIEB00A1-S/C1-S	1280RGB*800	IPS	229.46*149.1*4.8	216.96*135.6
Interface		L (cd/m2)	Temperature O.T/S.T	Optional
LVDS-8 bit /40pin & LVDS-8 bit /30pin/LED Driver		1000/500	-20~70/-30~80	4w RTP/PCT
		1000/500	-20~70/-30~80	4w RTP/PCT

\*\*\* C0/C1 built up power board 30pins, A0/A1 no power board 40pins
